**LITTLE ONES
 BECOME BIG ONES**

Many of our friends ask us why we put forth such
 efforts as we do to get small accounts. Many of which
 are started with deposits of only one dollar. It is true
 that such accounts do not begin to repay the cost of
 handling.

However, we are building for the future. These
 small accounts will grow. Many of them will in time
 become very profitable. The small depositor of today
 will be the large depositor of tomorrow. The boy who
 opens the dollar savings account will in a few years be
 the business man with a valuable commercial account.

C. F. Binford
 Charles Fienstead Binford
 died at his home in Prince Ed-
 ward county, October 10th, in
 his 58th year. Though he had
 been in declining health for
 several years his death was
 quite sudden. Mr. Binford has
 many friends and relatives in
 his county and it is with much
 sorrow that we received the
 tidings of his death. Mr. Bin-
 ford was a true christian gen-
 tleman having spent his life
 serving his master, and was
 ready when his summons
 came which was signalled by
 the bow of the head only. He
 was buried in the family grave-
 yard at Buffalo church. The funeral
 was conducted by his pastor,
 Rev. Moser, assisted by Rev.
 Ponton and Perryman. The
 music was rendered by Mr. John
 Cunningham, a blind minis-

terial student of his neighbor-
 hood, and it was very impress-
 ively rendered — "Lead Me
 Gently Home Father" and
 "Sometimes We will Under-
 stand". The flower contribu-
 tions were beautiful and were
 carried by his nieces — Elsie
 Carter, Louise and Virginia
 Morris and Annie Hancock.
 Mr. Binford is survived by his
 wife, nee Miss Ana Chilton, of
 this county, three daughters—
 Ethel, Margie and Reva and
 one son, Chapman Binford, also
 one brother, W. B. Binford, and
 two sisters, Mrs. C. H. Moore
 and Mrs. J. D. Moore, all of
 Prince Edward county.

**Census Bureau On Age In Vir-
 ginia**
 According to the census of
 1920, 35.8 per cent, or over
 one-third of the people in the
 state of Virginia are either
 infants or children under 15
 years of age; 10.1 per cent are
 young people 15 to 19 years
 old; 35.4 per cent, over one
 third, are men and women in
 the prime of life, being from
 20 to 44 years old; while 18.5
 per cent, being 45 years of age
 and over, are well along in
 middle life if they have not
 reached old age.

The urban population as
 compared with the rural shows
 some rather striking differences
 in age, the percentage 30 to 44
 years of age being 44.4 for the
 urban population, as compared
 with 31.8 for the rural, while
 the percentage under 15 years
 of age is 27.6 in the urban
 population as against 39.2 in
 the rural. These differences
 may indicate larger families of
 children in the country than in
 the city, but probably indicate
 also the fact that country chil-
 dren as they grow up have a
 tendency to flock to the cities,
 thereby increasing the active
 adult population of the cities
 at the expense of the rural
 districts.
